

VISUAL LESSON PLAN CARDS

HOW TO USE

- Select the cards that are appropriate for your student's lesson and either:
 - Lay out the order and talk them through it as you go.
 - Or, allow your student to decide the order themselves.
- You can then both easily follow the lesson and use the visuals to stay on track.

ASSEMBLY

- Print out the cards (page 2).
- Cut apart along the dotted lines.
- Laminate if desired.
- You can then leave the cards as is or put magnetic tape or velcro on the back depending on the type of board you want to display them on in your studio.

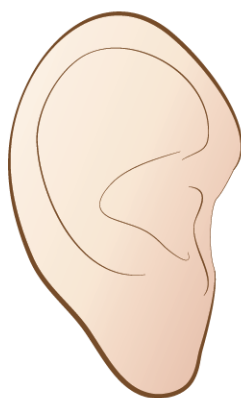

LEARNING OBJECTIVE

Having a visual lesson plan can help students to stay on track, look forward to their favourite part of the lesson, or just know where they are in the lesson structure.
